

User needs

As a...	I want to...	So that...
User	view all my recent transactions	i can see what i have currently spent in the last week or month
User	view my transactions by category food/travel etc	i can see what i spend most of my money on
User	be able to add a budget and be notified when i have exceeded or am close to exceeding it	i can better manage how much i spend and stop spending when i need to
User	view my transactions by merchant	i can see where i spend the most of my money
